WHY OUR PATIENTS CHOOSE US

UF PEDCARD is a comprehensive and non-invasive cardiac care provider to infants, children and adults throughout north central Florida and southern Georgia. Pediatric Cardiology sub-specialty programs in electrophysiology, interventional cardiology and heart transplantation continue to remain strong.

Camp Boggy Creek camping experience is more than a fun-filled getaway. It helps children to better cope with the day-to-day challenges they face. It also offers critical support to the parents, guardians and siblings of these amazing campers.

FELLOWSHIP & RESEARCH

The combined programs in pediatric cardiology and the University of Florida have developed from a long-standing collaboration between the Gainesville and Jacksonville campuses. The program in Gainesville is the first of its kind in the south and has been a major center for teaching and training over the years.

F. Jay Fricker, M.D.
